

The 13th Kyoto City PTA Festival

The 13th Annual Kyoto City PTA Festival took place on Saturday, December 11th, with an estimated 5,000 attending. The theme of this year's festival was *Dream-Powered Success*. The annual festival is hosted by the Kyoto City Board of Education and PTA organization throughout the city, and attracts elementary and junior high school students as well as their parents.

With children today facing a seemingly unending stream of hardship and anxiety as the economy continues to stagnate and social problems grow, the Kyoto City Annual PTA Festival seeks to create an environment in which the younger members of society are free to realize their dreams. Visitors enjoyed events on stage and a wide range of exhibits hosted by the participating organizations.
