

ICC Kyoto Switches to Eco friendly Paper Straws
as part of its Sustainability Initiatives at The GRILL

ICC Kyoto is known as the place where The Third Conference of the Parties to the United Nations Framework Convention on Climate Change (COP3) was held and the Kyoto Protocol was adopted on December, 1997. In 2019 from May 6th to 13th The 49th Session of the IPCC was held and ICC Kyoto once again played an important role in the progress of the world's climate change.

The city of Kyoto actively promotes various schemes such as energy saving and waste reduction. Kyoto is recognised as the no.1 city in the country according to the Sustainable Degree · SDGs Advanced Survey.

Today, ICC Kyoto is glad to announce that our restaurant The GRILL has switched to eco friendly paper straws, since plastic straws are non-reusable and cause marine pollution. ICC Kyoto will continue to strive to incorporate eco friendly practices into our operating procedures.
